A SHORT COURSE IN AGRICULTURE.

Provincial Department of Agriculture
will provide School
of Instruction at Lacombe.

In view of the fact that there is no agricultural college in the province at present, and in view of the fact that there are several men within the province who desire to undertake special work in agriculture, the provincial department of agriculture will establish a short course in agriculture at Lacombe, commencing over a period of two weeks from March 1st to March 15th inclusive. The school which will be held in the travelling school will be transferred to Lacombe for the term. Several of the exhibition buildings will be used for class rooms and some of the stock will be stalled in the experimental farm buildings adjoining.

The agricultural societies and exhibition associations of the province will be asked to appoint two men each to attend this course. It is expected that fully one hundred students and probably more will be in attendance. Hon. W. T. Finlay, minister of agriculture, has indicated that the interest taken in this short course of instruction will go a long way towards determining how long it will be before the province of Alberta will have an agricultural college of its own. A great many of the several men and daughters of Alberta farmers who are studying in agricultural colleges in the east. The department pays their railway fares and the non-residential tuition fee.

The subjects to be discussed at the short course school are as follows:

1. Livestock (a) Judging; (b) History of breeds; (c) Stock Breeding; (d) Feeding; Care and Management.
2. General Agriculture (a) Crops; (b) Grain Judging; (c) Soil Cultivation; (d) Studies in Woods.
3. Dairying.
4. Poultry.
5. Forestry.
6. Veterinary Work.
7. Horticulture.

The tutorial staff will be composed of the following well known agriculturists:

O. M. MacRae, Ottawa; W. C. McKillop, H. E. McMillan, Ottawa; G. H. Hutton, Lacombe; Duncan Anderson, Ottawa; L. H. Newman, Ottawa; T. B. Henderson, Dept.; W. A. Fairfield, Lethbridge Experimental Farm; H. A. Craig, Dept.

Lacombe 3-Red Deer 4

The hockey match on Tuesday evening last resulted in Lacombe defeating Red Deer by a score of 6 to 4. The game was a fairly fast one, and at times a little rough, although no one was hurt. Dan Smith has lost his usefulness as a referee. As is usual with infant prodigies he has reached the stage where he thinks the whole game depends upon him. His fall was ringing continually for a straight hour on Tuesday night, which did not add to the interest of the game.

Mrs. W. F. Graham will receive for the first time on Thursday, January 21st from 2:30 to 5 p.m. and afterwards on the third and fourth Thursdays in each month.

A girl who wishes to go to school in Lacombe can find a good home in exchange for her work during spare time. Apply at Mrs. Frank McLean's, Nanton St., or at the Athletic Club Store.

On the 20th of January there will be a basket noon and entertainment in the Free Presbyterian Church. The proceeds will go towards the reduction of the debt on the church property. One and all are cordially invited to come.

Curling Notes.

The rink skipper by W. N. Morrison is making a record this season. This aggregation of star players has to date beaten every thing in sight—in fact this long series of wins is becoming a record. There is some talk of getting up a rink composed of four old regulars to determine if it is possible to beat this rink. Mr. Morrison may make a bet of the Division with his rink, if his players are good.

Big Work on C. P. R.

James Foster, engineer, City of Lacombe, has been killed by a train on the C. P. R. near the town of Lacombe. Mr. Foster was on duty when the accident occurred. He was killed by a train which was running at a high rate of speed. The train was carrying a large number of passengers. The accident occurred at a crossing. The train was stopped for a short time. The passengers were not injured. The train was then allowed to proceed. The accident was caused by a signal which was not working properly. The signal was supposed to stop the train. The train was not stopped. The accident was a serious one. It was a tragedy. The death of Mr. Foster was a great loss to the community. The accident was a warning to all. It was a reminder that safety is always important. The accident was a tragedy. The death of Mr. Foster was a great loss to the community. The accident was a warning to all. It was a reminder that safety is always important.

Church Opening.

The new Presbyterian Church will be opened on Saturday, Jan. 19, at 8 p.m. Rev. Dr. D. G. M. Quinn, of Edmonton, will conduct the service both morning and evening. There will be a special meeting at 8 o'clock, p.m. for the new school children and young people. On Monday evening, February 1, a grand dinner and entertainment will be given in the basement of the church. Further particulars will be given next week.

Gull Lake Election.

Editor Globe.—My opponent, Mr. Wiese, has been blowing as I should expect him to do, of the fearful licking he gave me in this election, two to one he says, the figures are 20 to 11. That is all right. I am a sportsman enough to stand a beating, when things are done in a sportsmanlike way, but when a person begins to brag as Wiese has done the last few weeks, that he was a pattern and did everything above board, the way the public telephone was prohibited on election day was a caution. I am writing this partly to clear Mr. McNicol, the Secre-

tary. I am sure he did what was right and fair, and I intend to find out if the phone can be used for such purposes and if not, the matter. Mr. McNicol's name was attached to a nomination to the Returning Officer, it was not an official nomination and was not sent to the R. O. Mr. Quinn asked for this nomination and received it, as he said he Wiese's authority, that was right enough, but he had no right to ask a nomination on the night he left when Mr. McNicol collected the information that that nomination was not valid. It was a mistake, says it as official and valid it was to the R. O. It may have seemed funny and a good joke, but it was a long way from honest. It seems to me that it is a very serious offense. Mr. Quinn, and he as this Township has been in former years as to dirty work at elections, this Heaven sent Commissioner has tried to end Harold them all.

Yours truly,
S. H. WELCH.

Coal bids in galvanized and galvanized at big discounts.—Morrison & Johnston.

ALIX NEWS.

The result of the election of Councilmen was declared on Monday night, when it was found that Messrs Joseph Todd, H. H. Hall and Thomas Somerville stood at the head of the poll. The first meeting of council was held on Thursday night when the two new councilmen differed in their views from Mr. Todd who consequently sent in his resignation. The election of a new councillor will be necessary.

A seed fair will be held in Todd's Hall on Wednesday first. All interested ought to make it a point to attend.

Attention is again directed to the school concert in Todd's Hall on Monday, the 25th inst., the anniversary of Robert Burns birth. A number of talented persons have promised to take part. The bagpipes, tartan, heather and bagpipes are expected to be in evidence. Tickets are for sale at the principal stores.

A meeting was held in the school room to hear the annual report of the school and to elect a trustee vice Mr. Joseph Todd whose term of office expired that day. He was re-elected by acclamation. The report was very satisfactory. The names of sixty-two children are on the roll. The grounds have been much improved, and the people are to be congratulated on the condition of the school.

The hopes of securing an agricultural hall for Alix are bright. The committee appointed at a former meeting reported favorably and about four hundred dollars were subscribed in the course of an hour.

Mr. H. H. Hall, who has been ill, is somewhat better, but it is feared he will require to undergo an operation in the near future.

BENTLEY NEWS.

We are enjoying sunny Alberta weather again.

The Bentley hockey club are expecting to open their rink on Saturday afternoon with a hockey match, with the Medicine Hill boys and possibly a carnival in the evening. Although late in the season there is time for lots of skating yet.

Miss Ross, the teacher in our public school, spent Saturday and Sunday at R. Hamilton's.

The Literary meetings are drawing a good attendance, and last Wednesday night Mr. Hutton of the Experimental Farm, Lacombe, gave a very interesting and instructive talk on the work they were doing at the farm. The debate for this week is, Resolved "That a miser is more detrimental to the country than a spendthrift."

A mass meeting will be held at Bentley Saturday afternoon, Jan. 20th, in the interest of the Lacombe West Electric Line. Bills are out announcing same.

Watch our window for big cuts in furniture.—Morrison & Johnston.

MARRIED.

N. I. McDermid returned on Friday from an extended holiday trip to his old home in London, Ont.

Hockey skates and sticks at Morrison & Johnston's.

Mrs. McKinney, the Provincial President of the W. C. T. U., will address a public meeting in the Methodist church on January 23, at three o'clock. A large meeting of members and friends is requested.

The Women's Christian Temperance Union will hold an Hospital Shower on Friday, the 19th of February from three to six o'clock in McPherson's Hall. The members of the Union will be at home to friends and contributions of useful articles for the hospital, from any who feel disposed to contribute, will be received.

Children's sleighs, all sizes, we are clearing these off at big discounts.—Morrison & Johnston.

Every farmer in the district should subscribe for "The Farmer's Home Journal." This paper is brimful of facts which will enable the farmer's wife to make more money out of her poultry than she has done before. The columns are full of seasonal farming topics. Enclose 10c and address subscriptions to Golden Kennels, Chatham, Ont.

The regular monthly social of the St. Andrew's Y. P. S. C. E. was held on Wednesday evening, January 16th, at the home of Mr. D. Cannon. There were over forty members present. One of the features of the evening's entertainment was an old fashioned spelling match, but medical terms and a new fangled dictionary combined.

Miss Bonner, impersonator and ventriloquist, gave two selections, which were heartily applauded. Music, vocal and instrumental, filled in the time between the other numbers on the programme. The Cannon Orchestra gave two or three very nice selections. At the close of the evening Mr. Cannon kindly served a very nice lunch. Before dispensing the thanks of the Society was very heartily tendered to Mr. Tod for the interest he has taken, and the help he has been to the Society since coming among us.

Mrs. G. G. MOBLEY - Nanton Street, LACOMBE

OPENING OF LEGISLATURE

THE SPEECH FROM THE THRONE

Edmonton, Alta., Jan. 14. Before a large crowd of interested spectators the fourth session of the first legislature of the Province of Alberta was opened by Lieut. Governor Balfour this afternoon. Although the temperature was down to thirty below, the day was bright and clear, and the procession from Government House made a brave showing. Long before three o'clock the huge assembly hall was filled, and by the time the governor arrived the crowd overflowed and the street was packed for the distance of a block.

"Order, order," shouted the sergeant-at-arms, as he entered carrying the mace, followed by Speaker Fisher and the members of the government. The crowd surged to the front and the chaplain, Rev. E. B. Marshall, delivered the opening prayer. Another wait then came from the crowd outside; chanting of bits; horse-shod commands and clanking of hoofs on the snow warned those inside of the arrival of the lieutenant-governor. As he alighted from the carriage, accompanied by the mounted police and military officers, the trumpet blared forth the general salute, and the escort of Alberta Mounted Rifles, presented arms. Those inside craned their necks expectantly and through the frost-covered windows saw dimly the great coated men on horses, covered with frost and with steaming nostrils.

A brief wait, and "Lieutenant Governor Balfour" was announced by the stentorian tones of Capt. Worsley, A.D.C. Accompanied by his staff the governor entered, splendidly arrayed, with full Windsor uniform, brilliant with gold lace. Surrounding him, and making a big contrast with his black uniform and dark clothes of others and other dignitaries, were officers of the escort, brilliant in scarlet and gold.

The governor lost no time in reading the speech from the throne which was listened to attentively, after which he left the room. A few seconds later the trumpets again blared, the escort saluted and fell into their places, and the procession moved back to Government House where preparations for the big levee tonight were in full swing.

control of affairs may preserve it inviolate. The year has been marked by the celebration of the 300th Anniversary of the landing of Champlain in the St. Lawrence. The festivities at Quebec, honored as they were by the gracious presence of the Heir Apparent, were, of course, primarily of a Canadian and Imperial character. They served, however, to emphasize the good understanding between the mother countries of the two races to which our Dominion mainly owes its settlement, as well as the fact that within the Dominion itself division between these races has ceased to exist.

The relation of Canada with the United States show continued improvement and a desire on either side of the line to cement the friendship so necessary to both our good offices. His Majesty's Ambassador at Washington, The Right Honourable James Bryce, have been of the greatest service in this regard. An invitation has been issued to His Excellency The Governor General and to The Right Honourable Sir Wilfrid Laurier, and has been accepted by them to take part in the conference for the preservation of the natural resources of the continent which is to be held at Washington, which should be fraught with valuable results with respect to our forests, water power and minerals.

In commercial and agricultural affairs the year has been marked by the gradual restoration of normal conditions and by a bountiful harvest. The prosperity of the farmers and their renewed ability to meet payments have at once been reflected in the financial condition of the commercial classes and is an impulse to the flow of immigration.

Our thanks are due to Divine Providence for the increasing prosperity of the Province and for its exemption from material disaster. Our sympathies have been evoked during the year by the terrible forest fire in the neighboring Province of British Columbia, marked especially by the destruction of the City of Fernie, and our admiration has been equally aroused by the firmness with which that catastrophe has been met. The recent earthquake in Italy called so for the expression of our heartfelt sympathy and is a awful reminder of our mortal state.

The continuation of peace within and without the Empire is a matter for sincere gratitude and I trust that the wisdom of those in view. My Government will submit to you two bills dealing with the Constitution of this House. A Bill respecting the Legislative Assembly provides for an increase in the number of representatives corresponding to the increase in the population of the country and enabling the people more accurately and readily to give expression to their wishes. The necessary proposals as to the redistribution of seats have been framed carefully with these ends in view. An Election Bill substitutes arrangements more in line with the new Provincial life than were provided by the Territorial Ordinances which worked sufficiently well in a sparsely settled country but the machinery of which was unsuited to modern conditions. The Bill is based on a system providing for the registration of voters. A careful review of the existing Provincial Acts has resulted in the compilation of a measure which it is thought embodies the best features of all and will I trust meet with your unanimous approval. A Bill will be submitted to you entitled "Jury's Protection Bill." This measure shows that with the growth of population in the Province there is increasing need for one and watchfulness. In this regard, The Bill will give powers to take charge of children who have offended against the law or are in danger of being thrown into the streets and will enable them to be placed and kept in healthy surroundings in foster homes on farms or elsewhere under indenture. I trust that such provision will have a beneficial effect on a class that is accused of our most careful attention. In a previous Session it was provided that the care and maintenance of the insane should not be thrown entirely on the public but that the estate of the patient should contribute equitably. This policy has to some extent been carried out, but it has been hampered by the lack of an official Guardian and the necessity of applying to the Courts for the appointment of a guardian in each case, thus involving the expense and the Province in unnecessary legal expenses. An amendment to the Act concerning Insane Persons will be presented to you appointing the Attorney General Official Guardian of the estates of such persons, thus enabling him economically to carry out his present discretionary powers. Legislation embodying other necessary amendments to the Statute Law of the Province will also be laid before you. The Public accounts and estimates will be laid before you at an early date. Mr. Speaker and Gentlemen of the Legislative Assembly: In submitting these measures to your consideration I think I may legitimately refer to the beneficent effects of your past labours. In connection with the development of the country the work done by the Department of Public Works has been of marked value. Roads, bridges and ferries have brought men into closer touch with one another and facilitated the outflow of their products. The Government Telephone System is furthering this work. Many public buildings have been completed or are in the course of erection. A good beginning has been made of the future home of this Assembly upon the hill above us. The revenues of the Province have been handled by the Treasury with economy and accuracy.

Education has been facilitated all over the Province. A large number of new school districts have been organized and the interests of higher education have been materially advanced.

The Agricultural Department has availed itself of the machinery placed at its disposal by various Acts and has materially assisted in the development of the wealth of the country. Co-operation both in the production and marketing of the principal agricultural products has brought substantial returns to the pockets of the farmers. The fight against weeds, fire and other enemies has been carried out unflinchingly to the general good.

Administration of justice has been facilitated and simplified by the Supreme and District Courts Acts. Many who had previously to make long and expensive journeys to obtain judicial adjustment of their affairs now have courts held periodically almost at their doors.

Everywhere the new Provincial life which is stirring so strongly around us has been guided and fostered.

I feel assured that the measures which I have mentioned, together with others which may be introduced will receive your most careful consideration and that your deliberations will conduce, as in the past, to the prosperity and well-being of the Province.

The courtesy of a half-fare rate extended to western clergymen by the railroads is likely to be withdrawn, or, in any event, greatly curtailed. It was first inaugurated by the C.P.R. with a view to assisting struggling missionaries and in the development of the country, and was never intended to be a permanent. Last year 5,000 permits were issued by the railroads of the west, but all have been cancelled this year, and the future policy regarding them is now being considered. The C.P.R. does not wish to work hardships on poorly paid missionaries and pastors of struggling rural congregations, but is disposed to insist on highly-paid ministers paying their way the same as others. The report is that the half-fare may still be extended to sections of Saskatchewan and Alberta, but not to Manitoba.

Canyon, Alta.

Notice of Dissolution
Notice is hereby given that the partnership heretofore existing between Arthur Wood Kent, Alfred George Kent, and Arthur John Kent, carrying on business as Painters, Paper-hangers & Decorators, in the Town of Lacombe, in the Province of Alberta, under the name of "Kent & Sons" has this day been dissolved by mutual consent, the said Alfred George Kent, and the said Arthur John Kent, retiring. The aforesaid business will in future be conducted by Arthur Wood Kent, to whom all accounts due the firm of "Kent & Sons" must be paid, and by whom all accounts owing by the said firm of Kent & Sons will be collected. Dated at Lacombe this First day of January, A. D. 1909.
A. W. KENT,
A. J. KENT,
A. G. KENT.

Witness: ETHEL KENT.

Bids Wanted.
G. H. Hutton will receive offers for the purchase of the old Agricultural Hall, and also the fencing. The building could be converted into a stable at slight expense, and the old fencing is in good condition.
G. H. HUTTON.

FOR SALE.
Nine-roomed house for eighteen hundred. Snap for somebody.

Legislative Assembly of the Province of Alberta
Extracts From Rules Relating to Private Bills

52. All applications for Private Bills, property the subject of legislation, by the Legislative Assembly of Alberta, within the purview of "The British North America Act, 1867," whether for the creation of a bridge, the making of a railway, tramway, telegraph line, telephone or telegraph line, the construction or improvement of any harbour, canal, lock, dam, slide or other like works; the granting of a right of way, the incorporation of any exclusive trade, or calling, or of any joint stock company or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges, whatever, or for doing any matter or thing, which in its operation would affect the rights or property of other parties, or relate to any particular class of the community or for making any amendment of a Bill, the title to any former Act, shall require a notice, clearly and distinctly specifying the nature and object of the application, and where the application relates to any proposed work, indicating generally the location of the work, and also in the case of a Bill, the applicants, such notice to be published during two months, between the date of the presentation of the Bill and the date of the consideration of the Bill, in the House of the Alberta Gazette, and of one other newspaper, published in English and within two weeks of the date of the presentation of such notice. In the Alberta Gazette two copies of the said Bill, with a receipt from the Provincial Treasurer for the sum of one hundred dollars, if the said Bill does not exceed six pages, and ten dollars additional for each page over that number, and for the purposes of the rule 53 words shall be held to constitute a page and also in the case of a Bill, the applicant or applicants for the incorporation of a company with a similar capitalization to the Capitalized name of the company shall be incorporated by such Bill, shall be placed by the applicant in the hands of the Clerk of the House, whose duty it shall be to get the said Bill printed forthwith. Copies of the same, containing the first and last leaf of the Bill, shall be sent by the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

TABLE OF FEES TO BE PAID TO THE REGISTRAR OF JOINT STOCK COMPANIES UNDER

Canada's Railway Development.

Toronto Globe. A network of steel is essential to an agricultural country as a network of streets to a city. Every farm must be brought within easy reach of railway accommodation for a long haul by wagon or stage makes farming operations unprofitable. This need and the opportunities for enterprise it affords are recognized by both railway promoters and investors, and the record of last year promises to be exceeded by the development of 1933. During the year 1932 there was an addition of 1,249 miles to the railway lines of Canada. Although this is a remarkable increase, it will probably be followed by a year of still greater expansion. There are under construction at the present time 4,337 miles of railway in Canada, but this will not be completed during the coming year, although it is estimated that the expenditure on construction by the various lines will reach \$100,000,000. This by a country having 22,493 miles in operation in 1907 shows a prospect of phenomenal development. The western section of the Grand Trunk Pacific is being pushed forward to completion. Within a few months trains will be running between Port Arthur and Edmonton. Grading is finished 120 miles west of Edmonton, and construction work is being advanced energetically on the mountain section east from Prince Rupert. The Grand Trunk has also carried out some important construction work in older Ontario. During 1932 there were some 310 miles of rails laid on the National Transcontinental line, and the total expenditure on this road to date has been about \$47,000,000.

The Canadian Pacific will have over 500 miles under construction in the West during the present year. In 1932 this system increased its mileage in Ontario by about 250 miles, and there are several lines and connections in prospect for the coming year. In the West many links will be supplied in the network of steel, thus further completing the system and bringing railway transportation within easy reach of new areas. The Canadian Northern has contributed materially to the total mileage construction of the past year, having extended 583 miles in ten different districts in Manitoba and Saskatchewan and 367 miles in Eastern Canada. This system will bear an important part in the interlocking of railways throughout the West, and already there has been a start on its line to Hudson Bay. There are four parties in the field at the present time surveying a line to Hudson's Bay on behalf of the Dominion government, and the northern route may be found far more practicable than former incomplete investigations seemed to indicate.

The important feature of this railway development is the strengthening of the links connecting Eastern and Western Canada. The routes extended and projected will bring closer together the sections divided by the rocky shores of Lake Superior. That has been the weak link in our chain of provinces, but by our projected railway expansion it will be made strong and firm. The courses of trade will be directed between the old Dominion and the new, and means of commercial communication will be adequate throughout the year. While there has been no unreasonable or injurious unwillingness to make needed connections with American ports and shipping points, railway promoters have perceived the wisdom of extending their lines to serve the trade that cannot be disorganized by custom-house lines. While every new district is being served by railway construction, the Dominion is being solidified commercially by the improved commercial contact between the East and the West.

A Slick Forger.

Edmonton, Alta., Jan. 12.—Under arrest at the city police station at the present time is a young man who by his own confession, is one of the most daring forgers that has yet appeared in Western Canada. Not content to deal in small sums as some of the less ambitious of his class, who have recently come before the courts, he has issued cheques for thousands of dollars, bought an hotel at Vegreville, and a farm at Big Island up the Saskatchewan, and

has even defied the law to such an extent as to get the crown prosecutor himself to make out an agreement of sale for land which he was buying on forged cheques. And to cap the climax, he paid the lawyer for his work by means of another worthless cheque. The young man, who is 26 years of age, well dressed, good looking, and a smooth talker, came originally from Richmond, Quebec. Two years ago he was sentenced to four years' imprisonment in Edmonton penitentiary for forgery, at Wetaskiwin. About two months ago he was released on parole, and since that time he has been practicing his old business, which before landed him behind prison bars.

He has a variety of aliases. He is now known as C. W. Stuart. At Wetaskiwin he was sentenced under the name of C. W. Clark. Other aliases are W. J. Higgenbotham, Geo. Caldwell, E. Bolton and M. McQuay.

He was arrested in Vegreville on Sunday, by Detective Webb, who has been working on the case for the past week, and he was brought to the city yesterday afternoon.

Telephone Rates Reduced.

An order in council was passed on Tuesday putting into effect a readjusted schedule of rates, and tolls in the provincial government telephone system. The reduction will average 25 per cent. The new schedule does not effect a 25 per cent. reduction on the former prices in every instance. In some cases there is no change whatever, but the average reduction is 25 per cent.

When the Alberta government undertook the government ownership of the telephone of the province as a promise of a reduction in rates was made, but under the department of public works management, and despite the fact that there has been a huge capital outlay in connection with the construction of new lines, the system has proved so uniformly successful that the government is expected to make a 25 per cent. reduction.

Earthquakes at Vancouver.

Vancouver, Jan. 11.—A slight earthquake was felt here this afternoon at 3:45. In Fairview, Grandview, and other high altitudes around the city, people rushed from their houses into the streets.

A rumbling noise is reported to have been heard in Fairview. Reports of a slight shock came also from Seattle, Victoria, Kamus, Tacoma and Bellingham, and other points along the Pacific coast, on both sides of the boundary. The same trembling was felt here, and lasted from seven to 30 seconds, according to the various reports from different parts of the city.

The quake was heaviest in Bellingham, where the plaster was knocked off the walls, and electric chandeliers were shaken to the floor.

Fifty Years Hence.

"My love," mentioned Mr. Suffer-Gutte, "I wonder—I wonder whether you would let me have the use of the latch-key this week?" "Latchkey?" belittled his wife. "What the dickens do you want with a latch-key, my good man?" "Well, my love," coughed Mr. Suffer-Gutte, "we are holding a series of fathers' foregatherings in the union hall this week, when we hope to do a little needlework on behalf of the parish poor. Miss Nancy has kindly consented to come and talk to us about her recent Farthest North trip and—"

"Great heavens!" cried the first wife, hanging her pipe upon the table to emphasize her words. "Don't you know your duty is at home? Besides on Monday I've got to attend the Women's Emancipation League; Tuesday, the Sisters of Charity meeting; Wednesday, the local politicians' concert; Thursday, the Daughters of Telford; Friday, the Women's Science Research class, and on Saturday, our football club's smoker. Now, don't you forget—your duty is at home!" And so it came to pass.

LIST OF LANDS FOR SALE.

In the Municipality of the Town of Lacombe, in the Province of Alberta, to be sold for taxes as authorized by Sections 182, 183 and 184 of the Consolidated Municipal Ordinances, Chapter 70, 1925, unless the arrears of taxes and costs are sooner paid, the Secretary Treasurer will proceed to sell the lands for taxes on the day and at the place mentioned in this advertisement.

Plan No. 1 A</

A. URQUHART & COY., Limited

The Greatest Of All!

WE hear no end of revolutions, due to scientific discoveries, and new ideas in politics. But the greatest of all, the revolution in the drinking habits of the white Northern Races—of this we hear very little. Yet a great change is quietly taking place. The Spaniard, Italian and Frank is forsaking his wine, the Russian his vodka, the German, Britisher and American his beer and whisky. Moved by the same spirit of destiny all are

Becoming Tea Drinkers

The famous Distillers and Brewers of Britain are advertising harder than ever before. See the papers. Their trade is decaying. The wine producers of France and Spain are in rebellion because their governments cannot find a market for their wine. The dry belt in the States is fast becoming the whole garment. The wet States, shown on a map, are only the odd buttons. The biggest question in British politics to-day is a new restrictive liquor law. Even the German Kaiser has "swore off" completely. He had to—or lose his crown. The price of Tea is advancing on account of the enormous and ever increasing demand. And it isn't for nothing that people are taking to Tea Drinking. What other beverage, of the whole list of them, can be compared for a moment to a

Cup of Good Tea? NOT ONE!

We appreciate the fact. We uphold it too, and we are after your Tea business. We may not succeed in getting it, but we WILL succeed in deserving it. It is one of our plans for this year to give you still better Teas—better values. The order has gone forth in our Grocery Department: "Still further improve your Teas." The Department replies it cannot and show a profit. But the order holds good

Improve your Teas Increase your Sales

And we are waiting for the Results.

Unlike most merchants we buy all our Teas and Coffees

In Bulk,

the Teas in the original lead lined chests. We do not sell package teas.

The Black Teas of which we sell most are at
35c. and 40c. per lb.

At this price our Teas have all the qualities Tea should have, color, strength, flavor, and give easily Fifty Cents worth of package tea satisfaction. At
50c. per lb.

We are beginning the year with a Tea that is incomparably the best obtainable. We do not mean that it is a Tea de Luxe, that commands a fancy price. But we do mean that it is a Tea that will appeal to the palate of those who insist on the finest blend of Tea qualities. At

25c. and 30c. per lb.

the character of the Tea must necessarily suffer on account of the price. But while there are some who want a Tea at this price, we will promise them qualities of strength and flavor that is better than ~~the~~ **PRICE.**

COFFEES

20c., 25c., 30c. and 35c. per lb.

All we have said about our Teas apply with equal force and directness to our **COFFEES.**

Our Great Sale

closes

Saturday First

The 23rd

DURING these last few days of our sale, there will be a great Round-Up of Odds and Ends left, and a great slaughter.

Final Clearance Prices

must chase them out of our way. The Sale has been a Success in every respect, and now

A WORD OF THANKS

is due to those who helped us make it so, who accepted our word that the BARGAINS were as advertised, and who came to our sale, and bought to the extent of their requirements in many cases anticipating their requirements. And though a little late, we also THANK our FRIENDS and CUSTOMERS of the past year. Our interests and theirs are Mutual—Identical, and for our part, it is our purpose and ambition to give them a service that will be always improving, and that will further insure their confidence.

It is a flat contradiction of the laws of nature that the

Late Birds

should get the best BARGAINS. Yet this is what happens to those who will drop in on us during these LAST DAYS of the Sale. Perhaps it is the law of compensation that gets in here. For the weather has been severe, and many of our country customers could not attend THE SALE. We are, therefore, pleased at

Their Luck

if they manage to get in before FIRST SATURDAY midnight. Remainders must go. We have no room for oddments. There will be something doing first Saturday. FINAL CLEARING PRICES, as we have said, will end the debate, and

Close the Sale

January Whitewear Sale and Exhibition

January White Wear Sales are the order all over that part of the world that matters, and why not have one too?

Why not?

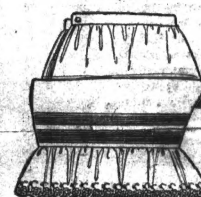

We went to the right place to get these goods for the coming season, the manufacturer who is known to the trade in Canada as first in Style and Value, and who never condescended before to sell direct to the smaller towns in the West.

The Sale and Exhibition will open

MONDAY 25th. January

Corset Covers Gowns Skirts Drawers Aprons Children's Dresses

will be displayed conveniently, and we cordially invite inspection.

BLOUSES

will arrive later, and will be shown some time in February. We beg to submit the following letter from the manufacturers, which will explain the delay in their shipment, and will also interest the ladies in other respects.

To A. URQUHART & Co., Ltd.
LACOMBE.

Dear Sirs:—

Owing to the uncertainty which existed during the early part of the season as to length of sleeve and general shape of Lawn Waists for season 1909, it has occurred to us that our principal customers would appreciate a letter giving information on the Waist question.

We are now subscribers to a Syndicate (composed chiefly of New York and Boston Manufacturers) who keep a designer in Europe continually. The Syndicate employs two designers, and has an office in Paris and another in New York; each office sends a circular letter descriptive of designs to every subscriber weekly. There is always one of the designers in Europe, and the other in New York, and they change places every six months, so that the man in New York is always in touch with matters on both sides of the ocean. French or European fashions are not always accepted in New York, or, if they are, they are usually altered or "Americanized" before becoming popular on this side; we therefore take our ideas from the New York designing office (and from the knowledge that we get through the New York office of what the leading Waist Manufacturers in New York intend doing). Our Mr.—accompanied by our head Designer, spent two weeks previous to Christmas in Boston and New York, and our exceptional means of getting information has enabled us to learn definitely what are the latest Waist designs for the coming season.

Many of our customers placed their Waist orders with us months ago, and we appreciate early placing, as having the orders on hand enables us to calculate the amount of work we will have to turn out, and to arrange our factory plans accordingly; but though we take the orders for Waists early, we do not commence cutting the Waists until the style is definitely settled in New York. We have now commenced making up our Waists and those customers who placed their orders with us many weeks ago will find when they receive the goods that price and quality of material are same as sample submitted them, but the design in many cases will be quite different; for instance, most of our sample Waists were shown with three-quarter sleeves, whereas the sleeve which we will supply, principally in the waists, will be a "close-fitting long sleeve." The design of the Waist on the shoulder has also been altered, the epaulet or piece extending over the shoulder being now eliminated.

Temperance and Moral Reform.

Apparently it is a very hard matter to satisfy the Temperance and Moral Reform League of Alberta. At the present, Alberta enjoys more legislation in the interests of the temperance cause than any other part of the continent. The ten o'clock closing Act was a great victory for temperance and the license act of Alberta should satisfy the most exacting reformer.

The temperance and moral reform leagues, however, are not satisfied to let well enough alone for the present, but are asking for a long list of changes at the present session of the local legislature.

One change is that local option be carried by a majority vote, not a three-fifths vote as is now the law.

While we are in favor of temperance legislation, we do not think it would be fair to the hotel men to allow a majority vote to rule in this case. Very few business in Alberta have the amount of capital invested in it as in hotels, and a measure of protection should be given this capital. Under the present laws our hotels have to be of a first class order. Never in the history of the west have the liquor laws been so rigidly enforced, and the needs of the travelling public given so much attention as at present.

Local option at the best has proved a curse to nearly every community in which it has been enforced, and to make it any easier to secure than at present would be a mistake.

Alberta does not want local option to any great extent. In the few places in the southern and of the province and in Manitoba, where they enjoy it, there is more drunkenness and disorder than in most of the licensed districts.

Another thing, we notice in a report made by a Mr. Webber at a meeting of the League the other day in Red Deer, he made the very wild and ridiculous statement that the estimated sum of \$6,500,000 went over the 200 bars of the hotels in Alberta in a year. Of course he raised quite a sensation in the meeting, and the need of temperance legislation was at once

admitted by all present. But Mr. Webber was not sticking to the truth in this statement. We venture to say he was not telling the truth by \$4,000,000. We would suggest that in the interests of temperance and moral reform the agitators should refrain from stooping to the lowest Tammany methods in forwarding their cause. There is such a thing as making a campaign of this kind ridiculous, and some of the enthusiastic reformers are working hard to this end.

Until the Temperance and Moral Reform League can suggest something better than local option to assist temperance, they should drop the subject.

Down From the Yukon.

M. J. Aunger, brother of Dr. A. E. Aunger, is down from the Yukon looking after his business interests in Lacombe. He reports the weather very severe when he left the land of gold.

He brought down a few relics of prehistoric times with him, in the shape of bones and tusks of some gigantic animals.

A shoulder blade, which may be seen in the windows of the Alberta Drug store, must have come from an animal in the neighborhood of twenty feet high. He also has a section of the tusk of some mighty animal. In its entirety the tusk was over sixteen feet long. A tooth, with a surface six or seven inches in diameter will give a slight idea of the size of the animal which was the proud possessor of a mouthful of them. These relics were dug out of the placer mines in the Yukon.

The St. Joseph Convent, which was erected last summer in Red Deer, and the opening of which had been delayed for a while, is now in full operation and the Rev. Sisters are in a position to accommodate quite a number of boarders and ready to receive all applications. Besides the regular course of English, French, music, painting and needle work lessons can be obtained on moderate terms. The usefulness of such an institution cannot fail to fix the attention of parents anxious to give their children the benefit of a good education.

CONTENT ITEMS.

The literary society met last Tuesday evening at the home of Dr. Davies. A pleasant time was spent in discussing the different Canadian poets. As announced in last week's news a debate will be engaged in on Tuesday evening 19th inst., between the literary society and the boys' club of Great Bend.

The postponed dance of last week came off on Tuesday evening 12th inst. A good time is reported.

A representative of the Telephone Department was in town one day this week visiting the mines on business, relative to putting Jackson's mine in connection with the line.

The annual meeting of the Convent school district was held on Thursday last. After business reports were read and other important matters discussed, the election for trustees was held, resulting in a large majority for Doctor Davies over the retiring trustee, Mr. McTavish.

Mr. and Mrs. R. F. Bucknell, of Hopedale, were in town this week. Mr. Sandburg went to Edmonton on business Tuesday last.

Mrs. Louise McKinney, president of the W. O. T. U. of Alberta and Saskatchewan, will address a mass meeting in the Convent school house on Friday evening, January 22nd, in the interests of temperance. A collection will be taken up. Mrs. McKinney is a strong advocate of a good cause and in consideration of this being her first visit north we would ask that a good audience be given her.

Weather at time of writing is mild and clear.

The monthly meeting of the Women's Home Missionary Society of the Presbyterian church was held at the home of Mrs. H. A. Day. After the opening exercises the members were asked to suggest anything that might develop a forward movement of the Society during the New Year, with the result that three visitation committees were appointed to allotted districts for the purpose of securing new members. It was also resolved to get together clothing and quilts to supply some who may be in want of the same in our neighborhood and to have special meetings at once for this purpose. The subject for the month was taken up by Mrs. H. A. Murphy, being a brief survey of the Foreign Mission Work of the church with special reference to the pioneer missionaries of Korea.

Engineers Carscadden and Foster were killed, and three trainmen and a number of passengers slightly injured, as the result of the derailment of the west bound C. P. R. express near Yale, B. C., on Saturday last.

The street railway barns and Crawford's broom factory, of Kingston, Ont., were destroyed by fire Saturday morning, involving a loss of \$10,000. The firemen had a hard night in the bitter cold. A and B batteries were called out to help. All but two cars were saved. P. C. Naylor was injured by falling into a pit in the car barns.

W. B. McQueen of Red Deer, is contemplating starting a class of instruction on violin in Lacombe. Mr. McQueen will visit Lacombe once a week on a date to be arranged later. Anyone desirous of starting will kindly hand in their names to Miss Rosie Lehmann on or before January 23rd. Mr. McQueen is well known in musical circles in Red Deer and other towns of the province, as a teacher of great ability.

Statistics are published showing that during the Russian year just ended, 1,967 persons were sentenced to death in the empire and 782 executed. The largest number of executions were in Warsaw and Kiev, being more than 150 in each place. Sixty-three newspapers were suppressed in the empire and others fined \$50,000. This is the record of a civilized nation governed as in the dark ages by absolutism.

The educationalists of the province of Ontario have decided that in British countries, the letter "U" should follow the flag and that such words as labor, and neighbor, which in this country have been able to stand upon their own feet, should be without the additional "U" in future must be fastened up with this vowel. The decision of the department in Ontario seems quite sensible. It might be added that in a large portion of the British country the people discard the initial "H" and the ending "G" in pronunciation, and place an "H" frequently where it really should not be, yet we hear nothing about making such changes in our method of speech.

Flax Seed and Flax Meal
For Sale

If describes our work in detail and the unusual success of our graduates. Term begins Monday January 19th. J. C. McTAVISH, Principal.

Synopsis of Canadian North-West
HOMESTEAD REGULATIONS

ANY person who has been a resident of the Dominion of Canada in Manitoba, Saskatchewan and Alberta, excepting it and its not resident, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a District Land Agency or Sub-agency for the district in which the land is situated. Entry by proxy only, however, he made in accordance with certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.
(2) A homesteader may, if he so desires, perform the required residence duty by living on farming land owned solely by him, and then then eighty (80) acres in extent, in the vicinity of the homestead. Such residence in land still not meet the requirement.
(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).(4) The term "residence" in the two preceding paragraphs is defined as residing and working on the land in a bona fide manner, and the width of road allowances crossed in the movement.
(5) A homesteader intending to perform his residence duties in accordance with the above while living with persons other than himself owned by himself must notify the Agent for the district of each intention. His monthly notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, or to the District Land Agent at Lacombe, or to the District Land Agent at Edmonton.W. W. GORE,
Deputy of the Minister of the Interior.
